With their acceptance, with regret, of the resignation of Mrs. Guy Wenk as a member of the board, the commissioners appointed Mrs. Daniel A. Paddock, Gettysburg R. D., a former visitor for the services, to fill the vacancy.

Arrangements were made by the commissioners at their meeting this morning at the court house to meet with Architect Robert Itri of the York architectural firm of J. Alfred Hamme to visit the Adams County jail Wednesday, May 27, at 2 p.m. to survey the jail and determine if any changes can be made to make it "more escape proof."

Charles Albright, East Berlin R. D., who makes repairs to the bridges for the county, reported removal of a tree that jammed during a flood under the Zeigler Mill bridge, near Beechertown, and said that repairs will be made to the abutment in the near future. He also received authorization from the commissioners to replace worn wooden shields in six steel bridges in the county with heavy cable which he held will provide the same protective effect and last longer than the wood.

Curtains for election booths at McSherrystown were received today by the commissioners who said that with the installation of the curtains all will be ready for the placing of the booths in the various election places throughout the county for the primary voting next Tuesday.

BOOST TOWN AS SITE FOR INDUSTRIES

The suitability of Gettysburg as an industrial site was promoted by William A. Lentz, chairman of the Industrial Committee of the Gettysburg Chamber of Commerce, and J. Howard Gaines, a member of the committee, at the third Pennsylvania Industrial Development Clinic held Monday and Tuesday at Harrisburg. More than 200 representatives of industry and communities throughout the state attended the sessions called by the Pennsylvania Department of Commerce in cooperation with the Pennsylvania State Chamber of Commerce, Pennsylvania Chamber of Commerce Executives, Pennsylvania Utilities-Railroad Area Development Association and Pennsylvania Chapters Society of Industrial Realtors.

Lentz and Gaines presented Gettysburg's case as a potential industrial area to heads of the state Chamber of Commerce, Department of Commerce and others attending the sessions. They described the availability of sites, financing, utilities and other factors here.

Competition Keen

At the clinic they learned that Pennsylvania's "tax climate" is becoming more favorable to industry. Where once the state stood at the top of the list in taxes on industry, now it is eighth place, with seven states, most of them nearby, levying higher taxes on industry.

James J. Mahon Jr., Philadelphia, told the group that the more favorable "tax climate" should, all things being equal, help secure more industry for the state. Charles T. Douds, director of the Bureau of Mediation of The Pennsylvania Department of Labor and Industry, held that labor relations are "much better in Pennsylvania."

Discussion at the meeting, according to the two Gettysburg men, showed that "the competition for industry is becoming increasingly more keen. Many communities are using inducements including provision of community sponsored buildings and freedom from local taxation for periods of years as a lever to secure new industry," Gaines said.

Viscount Airliner Blows Apart Scattering Bodies Of 31 Over Baltimore Area

By JACK DAVIS
BALTIMORE (AP)—A Capital Viscount turboprop airliner blew apart during a nonstop flight from New York to Atlanta late Tuesday, scattering wreckage and the bodies of all 31 aboard over freshly plowed fields east of Baltimore.

Just 46 minutes earlier, another Capital airliner, a four-engine Constellation, plunged over a 200-foot embankment at the Charleston, W.Va., airport, 300 miles to the west, as it came in for a landing. It immediately burst into flames. Two bodies were removed from the charred wreckage and six persons were hospitalized.

An official at the Civil Aeronautics Board said it was the first time in its history that a single airline had had two fatal crashes in one day.

Weather May Be Cause

The weather may have played a part in both crashes. The Baltimore area accident occurred during a local thunderstorm.

CAMERA TAKEN HERE IN JUNE IS RECOVERED

Mrs. Pauline B. Weller, Harrisburg, whose husband, Garnett Roy Weller, entered guilty pleas of burglary charges in Bedford Tuesday was acquitted on a charge of receiving stolen goods at a hearing before Magistrate Irving M. Einbinder, Hagerstown.

Mrs. Weller was accused of receiving a Zeiss-Ikon 35mm camera which was identified as being stolen from the Gettysburg Furniture Companies last June 25.

Unaware Of Theft

Mrs. Weller contended she was not aware that the camera was stolen. In acquitting her Magistrate Einbinder said the state failed to prove that she had knowledge that the camera was stolen.

Safes Broken

In the furniture company burglary the camera, a light meter, a small safe and about \$64 was taken. At the same time another safe and a wall vault were broken into.

The camera found in the Weller home and the light meter were released to the Pennsylvania State Police after they were identified as stolen property.

Adams County authorities have placed a detainer on Weller in Bedford.

SYMPHONY TO GIVE CONCERT FRIDAY NIGHT

The concert Friday night of the Gettysburg Symphony Orchestra will be its first since it played in the Gettysburg High School auditorium last fall. Appearing again in the auditorium, the orchestra will present a varied program ranging from early classics to contemporary music.

Dr. William Sebastian Hart, director, will conduct. A member of the faculty of the Peabody Conservatory, Baltimore, he is well-known in Maryland and Pennsylvania musical circles.

The orchestra includes local and county musicians as well as some members from surrounding communities.

Summer Concerts

Friday's concert, rather than closing a season, will be something of a prelude to a series of concerts planned for the summer months in the battlefield community. It is Dr. Hart's feeling that the community's fame as a historic shrine should be complemented by its having a symphony orchestra.

The orchestra members and their conductor are working hard to give Gettysburg the kind of musical organization of which it can be proud. For the community the measure of its appreciation of their efforts will be measurable by the size of the audience that attends the coming concert.

In spite of limited rehearsal time, the orchestra gave a creditable performance last fall. Experience in playing together in rehearsals since then should serve to enhance its quality.

Fire Police Bill Passed By House

A bill introduced earlier in this session by Assemblyman Francis Worley passed the House Tuesday night by a unanimous vote of 191-0. It amends an act of 1941 to expand the services of fire police to all fire company sponsored functions instead of limiting their services to emergency work. Under Worley's bill the fire police can be called upon to serve at carnivals or other similar fire company functions.

Mr. Worley said the measure had the backing of county and state fire police organizations. A Worley resolution calling for a joint Senate-House probe of election frauds has been included in a 10-point legislative program being pushed for enactment by the Republicans in the Legislature.

JURY PONDER'S NEGRO'S FATE IN SHOOTING

An Adams county jury this afternoon was asked to determine whether Thomas Luther Brown, 47-year-old Gettysburg R. 1 negro junkman, killed Cleveland Arnold, a boarder in his home and an employee of his, on April 18 in anger at an accusation of infidelity, or whether he was an embattled and frightened husband, defending himself against an alleged knife attack by the slain man.

Brown testified this morning that his wife and Arnold, a 57-year-old itinerant worker from Florida, who had resided at the Brown home for five months and had been employed by Brown during the week preceding the fatal shooting, were planning to do away with him and install Arnold as the head of the household.

Brown claimed that during an argument on the night of the shooting in the Brown home on Granite lane, Arnold grabbed a pocket knife and that, fearing Arnold, he rushed upstairs to secure a shotgun to defend himself. He said that, when he came downstairs and saw Arnold coming toward him with the knife, he fired in self-defense.

Differ Over Argument

According to a statement by Brown made to state police and read at the trial the argument between the two men concerned alleged infidelity of Mrs. Brown with Arnold and plans to install Arnold as head of the household. Brown said his wife had told him she "wanted a man and not me or anything that looks like me."

Witnesses for the prosecution said the cause of the argument was somewhat different from the account given by Brown, and none observed a knife held by Arnold. Sarah Craig, Gettysburg, a visitor at the home the day of the slaying, said "Tom argued they was 15 minutes in a half hour and Cleve argued they was 30 minutes in a half hour and I say 'Tom, they's 30 minutes in a half hour'." She said she then went into the living room and watched television.

Ella Louise Brown, daughter of the defendant, who said she was the only person other than the principals in the kitchen at the time of the shooting, also recounted an argument over "the number of minutes."

TO INCREASE CAR INSURANCE

HARRISBURG (AP)—The state insurance commissioner announced Tuesday he has approved increases of up to 17 per cent for automobile liability insurance rates.

The rates approved were sought by the National Bureau of Casualty Underwriters representing 179 companies which write approximately 28 per cent of all the automobile liability premiums in Pennsylvania.

The rate changes for private cars will result in an average state wide increase of about 17 per cent. Rates for commercial cars and trucks will be increased about 12 per cent. The garage rates will be increased approximately 16 per cent.

Francis R. Smith, insurance commissioner, said that because of the more favorable experience of car owners qualifying for farmer rates, they will continue to receive a discount of about 30 per cent.

An informal public hearing on the rate increase was held here March 19.

Local insurance men said that Adams County will receive the lowest jump in rates of any area in the state with the average per car within the lower limits to average from \$1 to \$2 per car. While the state average increase will be about 17 per cent, the increase in the county will be between seven and eight per cent, it was explained.

"HAVE I TOLD YOU"

Have I told you lately, darling . . . just how much you mean to me . . . seems like it has been a long time . . . since I set my feelings free . . . for when people are together . . . they are prone to oft forget . . . things that count so very highly . . . fade into dream's silhouette . . . now my heart is bursting open . . . so I must relate my love . . . for each time I look upon you . . . faith and hope soar high above . . . in your eyes I find contentment . . . in your arms is paradise . . . every word you speak holds gladness . . . and a wealth of good advice . . . I give thanks to God above me . . . for your love so warm and sweet . . . and a tender kiss from you, dear . . . makes this life seem so complete . . . now I've told you of my feelings . . . but mere words cannot impart . . . because the love I hold for you . . . is still locked within my heart.

Astaire Wants To
Return One Award

HOLLYWOOD (AP) — Fred Astaire, whose 1958 TV spectacular danced off with nine Emmys, wants to return his "best actor" award.

But a spokesman for the Academy of Television Arts and Sciences says the award was won fairly by Astaire—and it is his.

Astaire said through a spokesman he wanted to return the award because of confusion over the "best actor" category. Some critics, including Ed Sullivan, contend the Emmy should have gone for a dramatic instead of a dancing performance.

HELPS JOHNSON

AUSTIN, Tex. (AP) — Gov. Price Daniel signed into law Tuesday a bill to help Sen. Lyndon B. Johnson (D-Tex.) win the Democratic presidential nomination.

The measure shifts party primaries from July and August to May and June. It allows Johnson to run for re-election before trying for the nomination at the July 1960 Democratic National Convention.

Major League Stars

Hitting — Harmon Killebrew, Senators, drove in five runs with a pair of homers for comeback, 7-4 victory over the Tigers.

Pitching — Danny McDevitt, Dodgers, gave up five hits, walked none and struck out six for 3-1 victory over the Phillies, who were blanked on two hits for seven innings.

FACING REALITIES

The existing County Home is badly out-moded and has been repeatedly criticized by grand juries for years. State authorities have insisted that conditions there be brought in line with present-day standards. By unanimous action in 1957 the Commissioners appointed a bi-partisan Advisory Committee to study the needs at the County Home. Their detailed report has been enthusiastically endorsed by the State as a program wholly suitable for, and within the means of, a small county.

Now after almost two years of consideration the Commissioners hope to begin construction of a new home this summer. It is believed that all funds needed can be obtained through sale of less than half of the land of the County Farm and through contribution by the Federal Government, with no county bond issue or millage increase necessary for the Institution District.

Is Adams County to ignore this program, or face up to it in a realistic, common-sense approach?

The 13 young women who make up the troop, with one exception, have been in Scouting since they were Brownies. Mrs. Gordon Webster has served as the leader from its inception as Brownie Troop 23, through Intermediate Troop 9 through Senior Troop 9.

At the picnic attended by 35 members and their families Patricia Weaver gave a history of the troop and presented Mrs. Webster with a scrapbook of activities compiled by the members.

Each troop committee member was presented with an inscribed Paul Revere silver bowl. The committee members, all of whom have served for more than five years in their posts, included Mrs. Weaver, Mrs. Claire Routsong, Mrs. William Sents and Mrs. Glenn Miller.

Mrs. Webster was presented with a Girl Scout statuette by the troop and a Girl Scout paperweight was presented to Mrs. M. Hardy Nichols, council executive. The members presented Mari Brataun, an Exchange student from Norway at Gettysburg High School, who was a member of the troop during the last year, with a friendship pin.

While the Scouts will receive their graduation certificates May 22 at the annual Court of Awards here, President Leila Tharp said they plan to remain together for a trip to New York City June 6 to 8 during which they will visit the Statue of Liberty, United Nations building, Radio City and will attend the show "My Fair Lady."

Members of the troop, which has as its assistant leader Mrs. George Ackerson, include: Georgianne Ackerson, Mari Brataun, Caroline Heimerer, Lucille Miller, Nancy Moser, Judy Newman, Marilyn Routsong, Donna Sents, Leila Tharp, Patricia Weaver, Leslie Webster, Bonnie Wright and Janet Slaybaugh. Mildred Moser, who has spent the last year in Arizona, is a member in absentia.

During their Senior Scout period the members have served as hospital aides, program aides and library aides. A number have re-registered and offered their services to the Girl Scout Council for use where needed. Two adults, Mrs. Weaver and Mrs. Webster, will receive ten-year pins and four of the girls, Judy Newman, Patricia Weaver, Leslie Webster, and Bonnie Wright, will receive ten-year pins.

WASHINGTON (AP) — President Eisenhower said today the Soviet Union seems to be pushing a propaganda drive in seeking admittance of Red satellite nations to the Geneva foreign ministers conference.

Eisenhower told a news conference he is very hopeful the Russians will abandon any such propaganda tactics so the conference can get down to fruitful negotiations.

MANY TOMATO
PLANTS BEING
PLANTED NOW

Two hundred growers in Adams, York and Lancaster Counties, under agreement with The C. H. Musselman Company, Biglerville are engaged in various stages of planting approximately three million tomato plants. Planting is expected to be completed in three weeks, according to Donald E. Horst, crop supervisor.

Directing planting operations in the three counties are Musselman fieldmen Earl Garretson, Lynn Smith, Daniel Dentler, and Paul Cooley. Four varieties of certified plants, Rutgers, Garden state, KC135 and KC146, grown in Georgia, are tucked on demand to Musselman's Biglerville plant for distribution to growers.

Expect Good Crop
With normal growing conditions throughout the summer months, the current planting schedule should produce the peak of the crop in late August and early September. Tomatoes are purchased under the federal-state inspection service and deliveries are made at Musselman receiving stations in Red Lion, Millersville, and at the plant in Biglerville.

Long considered one of Pennsylvania's most important cash crops, tomato growing in 1958 was especially successful when an all time high average yield of 12.5 tons per acre was attained in the state. Pennsylvania ranked third in the nation in tomato acreage with a total tonnage of 243,800 and an estimated total income of \$7,899,000 or about \$405 per acre.

Eighty-six growers in the state qualified for the 1958 Master Tomato Growers' Club as a result of a yield of 20 or more tons per acre.

In spite of this record, indicated acreage for 1959, according to the crop reporting board of USDA, is 24 per cent below 1958 in Pennsylvania and 14 per cent for the entire U.S. The decrease in Pennsylvania, it is believed, reflects reluctance on the part of some growers in view of proposed federal and state legislation that would directly affect the availability of harvesting labor.

Today's Talk

THE CHEERFUL OUTLOOK
I have had doctors tell me that over half of their patients had nothing the matter with them they couldn't cure themselves, if only they would make the try. This body of ours will give us a cheerful look every day of the year, but we must create that cheer ourselves. The substance of health and happiness is something that only our Creator has given to us, as an inheritance.

I try to pick out the happy faces as I walk about the streets in my town. Each one is a benediction. Each one shines forth like a new light. There is tragedy in an unhappy face but God also can put the sun's glow into that face, and save the day as well.

I like to go into offices and homes where there is the spirit of good will and courage marked upon every face. We have not as yet experienced the full power that is possible in the human mind and heart. The power of the will, alone, could move mountains.

They told Napoleon he could not cross the Alps into Italy. His reply was: "There shall be no Alps!"

People who have this cheerful outlook upon life have life nearly solved, and an endless trail of good fortune is created for each one of us, and a multitude beside. It isn't the choicest things that give us the most happiness, but the simple, everyday gifts in Nature that enrich us most, and last the longest.

The business world is very active when it gives out cheerful news about the country and the prospects for good profits ahead.

One great corporation that had been hard hit suddenly had a change of heart and raised its dividend that it had cut down a few months before. A cheerful outlook can perform miracles.

Tomorrow Mr. Adams will talk on the subject: "A Motto of Life—Up!"

Just Folks

THE BEST WAY

I'd rather quit your house at ten

And have you begging me to stay

Than stay till twelve or one and have

You wish that I would go away.

I'd rather keep my tales untold

Than ever sit and see you yawn;

I'd rather be considered dull

Than one who keeps you up till dawn.

I'd rather sit with you and read

The books I find upon your shelf

Than try to keep your ear for hours

The while I talk about myself.

I'd rather have your begging me

To stay and tell you something more,

Than weary you with too much talk

And grow to be a common bore.

looked like fog and that it was "unusually heavy."

There were many reports of forest fires but these were discounted by the district forester who reported there were no fires in this section.

An Associated Press report from Harrisburg showed that heavy clouds of dust rolling in from the drought stricken western plains swept over central Pennsylvania today.

Lancaster and neighboring counties reported that in some sections the clouds hung like fog and made motoring difficult.

C. S. Ling, chief of the government weather bureau, said the condition would probably continue for several days.

The dust clouds reached central Pennsylvania at dawn. They looked like fog and had the odor of earth. They hid the sun for several hours.

LOU KIRKLAND GIVES TALK TO ROTARIANS

The club service committee, L. Robert Snyder, chairman, arranged the program at the dinner meeting of the Littlestown Rotary Club Tuesday evening at Schottie's Hotel. Mr. Snyder introduced the guest speaker, Lou Kirkland, Hanover, director and secretary of the Hanover Hospital and personnel manager of Doubleday Publishing Company, Inc., Hanover. The speaker noted that Doubleday now prints from 100,000 to 125,000 books per day. Mr. Kirkland related the following facts concerning the hospital: The rising cost of hospital care is due to inflation, more laboratory tests per patient, the requests of nurses and other staff members for an increase in salary with shorter working hours; people are urged to carry hospital insurance. The cost for the average hospital to patient is \$19 per day. The Hanover Hospital now has available diagnostic and therapy treatment, but is in need of a recovery room.

Francis Gerrick, Littlestown R. 1, was presented as a new member. Visiting Rotarians introduced were A. Irvin Hostetter, Hanover, and Severn McLaughlin, Westminster. Local Rotarians will have one of their employees as a guest for the dinner meeting next Tuesday at 6:15 p.m. at Schottie's. The program will be in charge of the community service committee, composed of Charles E. Ritter, chairman, Arthur E. Bair Sr., Woodrow H. Bowman, Cloy I. Crouse, Clyde W. Crouse, Carl F. Hermann and J. Ray Reindollar. Old Times Night will be observed by the club on May 26.

Several summer activities were planned at the May meeting of the Ladies' Aid Society of Redeemer's United Church of Christ held in the church social hall Tuesday evening. The annual picnic for members and their families will be held on Sunday, July 12, at the Edward B. Geiman home, along the Hanover Rd., near town. The committee on arrangements includes Mrs. Charles A. Hofe, Mrs. Woodrow H. Bowman, Mrs. Glenn Flinchbaugh and Mrs. William W. Seibert.

The aid members and guests will enjoy an evening at Allenberry, near Boiling Springs, on Wednesday, June 24, for dinner and the production of "Make A Million" at the playhouse. The trip will be made by bus. It was decided that each member will be in charge of her own individual fund raising project again this summer and the proceeds will be returned to the treasury in September.

Mrs. Edward Geiman, president, presided for the business and heard reports from Mrs. Donald C. Arbogast, secretary, and Mrs. Paul F. Crabbs, treasurer. A final report was also given on the success of the Easter market. The aid will pay half the costs of painting the parsonage kitchen. The following were appointed hostesses for the next regular meeting on Tuesday, September 8: Mrs. Wilbur A. Bankert, Mrs. Melvin Shanbrook, Mrs. Richard M. Phearnan and Mrs. Claude Olinger.

The program for the evening consisted of the 23rd Psalm in unison, group singing accompanied by Miss Judy Flinchbaugh; scripture, Mrs. Calvin M. Sentz Sr.; prayer, Mrs. Geiman; flute duet, Donna Kooztz and Sharon Flinchbaugh, accompanied by Judy Flinchbaugh; vocal duet, Mrs. Geiman and Miss Kooztz; piano solo, Judy Flinchbaugh; Lord's Prayer in unison. The guess package, given by Mrs. Clement A. Sneeringer, was received by Mrs. Glenn S. Kaufman Jr. Refreshments were served to the group by Mrs. Sentz and Mrs. Horace Kooztz and Miss Blanche Troxell.

LABOR UNIONS MOUNT DRIVE AGAINST BILL

WASHINGTON (AP) — Labor unions, through breakfasts for congressmen and other forms of lobbying, are mounting a growing drive to revamp sharply or kill the Senate-passed labor regulation bill.

John L. Lewis, the veteran United Mine Workers Union president, was to register his opposition today before a House Labor subcommittee.

The 79-year old Lewis repeatedly has counseled against any new labor anti-corruption legislation. He says the problem is an internal one for unions to solve and, anyway, there are plenty of laws against embezzlement to curb union frauds if the laws are enforced.

Meanwhile the AFL-CIO, which supported the original Senate bill before amendments were added in the Senate, indicated a switch in sentiment. The AFL-CIO Executive Council is to meet here next week to go over the Senate version section by section.

George Meany, the AFL-CIO's president, hinted at federation opposition in a speech Tuesday to the Plasterers' Union. Meany spoke of the bill as passed by the Senate as "an active threat against the trade union movement."

James R. Hoffa's Teamsters Union came out with a broadside against the Senate bill while union members were quietly breakfasting groups of congressmen in efforts to get the bill trimmed down.

"There's no secret about it," a Teamsters spokesman said. "Most congressmen have been contacted by our representatives. It's just normal lobbying procedure."

The Senate bill basically requires a detailed reporting of union finances and full member rights in internal union procedures, with the secretary of labor given broad enforcement powers. President Eisenhower has said the Senate bill isn't strong enough against certain union practices.

GOP Starts To Press Democrats

HARRISBURG (AP) — Republican leaders have started pressing the Democratic majority to act on GOP-backed legislation stalled in the House.

Rep. Albert W. Johnson, GOP floor leader, said Tuesday there are "a number of good Republican bills languishing in committee." He urged Democrats to clear them for floor action.

Among the proposal outlined by Johnson was one providing for establishment of a Pennsylvania higher education assistance authority to make loans to students unable to pay for a college education.

Other major legislation Johnson said should be passed would have the State Liquor Control Board refuse licenses in heavily concentrated or residential areas, and prohibit the Public Welfare Department from raising relief payments without the Legislature's consent.

Says Phobia Drove Him From Accident

WESTFIELD, Mass. (AP) — A Springfield man offered a phobia about being hospitalized as an alibi in a District Court automobile case Tuesday.

Lloyd Casey, 48, told the court: "I was dazed and I heard someone say they were going to put me in a hospital. I just left."

Judge Andrew Anderson fined Casey \$35 for operating to endanger and gave him a three-month suspended sentence for leaving the scene of an accident.

KILLEBREW IS BIG GUN AS SENATORS WIN

By ED WILKS
Associated Press Sports Writer

Two months ago Harmon Killebrew figured he'd have a successful year if he stayed with the Washington Senators all season.

At the moment he leads the American League in home runs, with 28, and in runs batted in, with 26.

In five previous tries with the Senators, since he became their first bonus baby in 1954, his total home run output was only 11, his RBI total was 30 and he had scored just 29 runs.

Drives In Five Runs
The 22-year-old third baseman, junked Washington's losing skid at three games Tuesday night, driving in five runs with a pair of homers for a 7-4 victory over the Detroit Tigers.

That left the surprising Senators fourth, three games behind Cleveland's first place Indians, who defeated the New York Yankees 7-6. Chicago's White Sox re-earned second place, 1½ games back, with a 4-3, 12-inning victory at Boston. Kansas City's game at Baltimore was rained out.

Frank Lary had the Senators blanked on three hits until the sixth inning, when rookie Bob Allison, who drove in the other two Washington runs, doubled. Killebrew followed with a two-run, 420-foot sock. Allison's sacrifice fly and Killebrew's second home run put it away in the seventh against Ray Narleski, after losing reliever Dave Sisler (0-1) had loaded the bases with a pair of walks.

Fifth For McLish
Unbeaten Cal McLish won his fifth for the Indians, who made it with the help of four unearned runs. Rocky Colavito, who had four hits, and Woody Held homered for the Indians against loser Art Ditmar (1-2). Mickey Mantle, Elston Howard and Yogi Berra homered for the Yanks before McLish, 33, gave way to the heat and humidity at New York. Rookie Jim Perry saved it, blanking the champs on one hit while striking out four over the last two frames.

Cleveland's winning run was set up in the fifth on an error by Berra — who had set a major league record for catchers in his last game with a string of 148 errorless games since July 28, 1957.

All the White Sox runs came on homers. Starting right-hander Dick Donovan hit a two-run shot in the second inning and Al Smith put an end to it, scoring late frames for Chicago with a two-run homer in the 12th off losing reliever Murray Law (1-1). Rookie Rodolfo Arias (2-0) was the winner, although giving up Jackie Jensen's eighth homer in the Boston 12th.

Robinson Signs To Fight Basilio In Philadelphia

PHILADELPHIA (AP) — The president of the National Boxing Assn. said today that Sugar Ray Robinson will be reinstated as middleweight champion if Carmen Basilio is willing to fight him here on Sept. 21.

"If there is definite assurance that Robinson and Basilio will fight in the near future," Dr. Ward Wylie said at the Mullen, W.Va., home, "I'm certain the winner would be recognized as the world champion."

The 39-year-old Robinson signed a contract here yesterday to fight Basilio on Sept. 21 in Philadelphia's 100,000-seat Municipal Stadium.

Up To Basilio
The big question, however, was: Will Basilio, the No. 1 middleweight contender, agree to the fight. His camp would offer no assurance that he would, and Basilio was unavailable for comment. Some observers felt that the former middleweight and welterweight champion went into boxing to think about the deal.

The fight would be promoted by Samuel Rose, a city councilman, who was not present at the news conference to announce the signing. He is ill in a hospital.

Robinson would get 45 per cent of an estimated \$750,000 to one million dollar gate and the same percentage of more than \$300,000 in television and radio receipts. Basilio would receive 20 per cent from both sources.

Fulfills Ultimatum
By signing, Robinson partially fulfilled a New York State Athletic Commission ultimatum to sign for a Basilio fight by Friday or lose his title in that state.

The NBA lifted Robinson's title by edict on May 4 after repeatedly warning him to sign for a defense against Basilio. Robinson won the middleweight title from Basilio March 25, 1958, but hasn't fought since. Under generally recognized fight regulations a champion is supposed to defend his title at least once every six months.

John DeJohn, co-manager of Basilio, said the Robinson deal sounded phony.

Wait For Friday
"We're going to wait and see what happens Friday," DeJohn said. "We're certainly not going to let Robinson dictate terms and accept them meekly."

Basilio's other co-manager, Joe Natro, took a different tack, saying: "We've got to be satisfied."

Meanwhile, Al Klein, a member of the Pennsylvania Athletic Commission, said today he is awaiting an answer to a telegram he sent Basilio advising him of Robinson's signing.

Klein said the deal had been in the works for the last 10 days.

Has \$10,000 Bond
"I have \$10,000 Robinson posted in bond money that says the deal won't be a phony," Klein added. "When Basilio and his managers realize the financial aspects of the deal, I'm confident they'll sign."

Klein also commented on a statement by Marv Jensen, manager of Gene Fullmer. Jensen had said Basilio will not sign "because we have a signed contract with promoter Norman Rothchild for our services in Syracuse in July."

"My information," Klein said, "is that Basilio has not signed to fight Fullmer. I can't disclose my source of information but I consider it reliable."

Smithsburg scored a run in the third and added three in the fifth for a 4-0 lead before Jack McAndrews' team exploded for five runs in the last of the fifth. An insurance run was added by Fairfield in the sixth.

John Mort cracked out two of Fairfield's seven hits while Joe McCauslin poled a triple. Dick Reese, who relieved Bob Sites in the fifth, was the winning pitcher.

Fairfield will host Bermudian in an Adams County League game Thursday afternoon.

CHANGE START OF 500-MILER

INDIANAPOLIS (AP) — After losing nine cars in the last two 500-mile races before they had completed a single lap, the Indianapolis Motor Speedway will try to smooth out the May 30 start with a two-way radio system.

Speedway President Tony Hulman announced today that a radio transmitter and receiver in his pace car will keep him in touch with chief steward Harlan Fenger at the starting line.

Fenger, in turn, will be in telephone communication with eight observers around the 2½-mile track. It is impossible to see the entire track from any one spot.

Last year the first three cars in the lineup pulled out of the pits ahead of the pace car. Two extra laps were necessary before the lineup could be straightened up.

OFFER STEPS TO HOLD DOWN "ROWDYISM"

HARRISBURG (AP) — An editorial in the official publication of the Pennsylvania Interscholastic Athletic Assn. suggests seven basic measures to prevent rowdyism at high school athletic contests.

The editorial published in the P'Althete Tuesday stemmed from an incident involving the beating of Thomas Maher, 15, a Kingston High School pupil, by a gang of youths after the Chester - Farrell state championship basketball 1-1 playoff at Philadelphia in March.

"A member school must seek ways to control those who endanger its program," the editorial stated. "The responsibility for bad behavior must be accepted by administration, players, coaches and students and the entire community."

Some Of Remedies

It added, however, that any disciplinary action would have to be decided by the PIAA's district committee or board of control. The PIAA is still considering whether to take such action against Chester High School.

Some of the remedies proposed in the editorial include:

"1. The acceptance of the principle that regardless of the cause, the individual is responsible for his actions.

"2. A return to disciplinary action and the right of those in authority to exercise it be it parent, teacher or law enforcement agencies.

Good Behavior Habits

"3. The acceptance of the idea that the public school is an educational institution and not a reformatory. Confirmed delinquents should not be permitted to interfere with the education of others.

Those who show no inclination to profit by the school should be excluded.

"4. A return by adults to habits of good behavior at public meetings, conventions, sports events and other gatherings.

"5. An increased awareness by the public of the need for law enforcement and public support of police action.

"6. The acceptance of parental obligations.

Really Few Incidents

"7. And in the case of interscholastic sports, a recognition by adults of the purposes of interscholastic sports. Undue emphasis by adults leads to undue emphasis by pupils."

The editorial noted, however, that only a few incidents involving a small percentage of those in attendance occurred at the 20,000 basketball games played throughout the state the past season.

"But regardless of the few schools and individuals guilty, some condemnation on the many and throw a shadow on the interscholastic athletic scene."

BRAVES LOSE, DODGERS WIN TO TAKE LEAD

By ED WILKS
Associated Press Sports Writer

A four-game winning streak isn't much, but in the National League it means first place.

The Los Angeles Dodgers won their fourth in a row Tuesday night, beating Philadelphia 3-1 behind the five-hit pitching of young Danny McDevitt.

That gave the Dodgers a half-game lead over Milwaukee although the two clubs are tied percentage-wise (.600). The Braves lost 7-3 to the Chicago Cubs.

St. Louis kept Cincinnati from making it a virtual three-way tie by beating the Reds 7-4. Pittsburgh defeated San Francisco 6-5 in 12 innings.

Willie Jones Homers

No one has been able to put together more than a four-game string in the National League.

The Dodgers now have won seven of their last 10, and McDevitt has two of the three complete games the pitching staff has produced in that span. The 26-year-old lefty (2-1) had a two-hit shutout until the eighth inning when Willie Jones hit his seventh home run. McDevitt walked none, fanned six.

McDevitt singled home the Dodgers' first run in the fifth after loser Gene Conley (1-1) had purposefully passed Don Zimmer. The Dodgers scored twice in that frame, getting the other on an error. Duke Snider singled home the final run in the eighth off reliever Jack Meyer.

Second Loss For Burdette

The Cubs handed five-game winner Lew Burdette his second loss in a row, scoring five in the ninth at Chicago on a home run by Walt Moryn and pinch hitter Earl Averill's first grand slam. Tony Taylor also homered off Burdette. Don Elston (1-1) won it with one inning of scoreless relief.

Rookie right-hander Gary Blaylock hit a two-run homer and won his first for the Cards, although needing Bill Smith's relief after Vada Pinson's two-run double finished the Reds' scoring in the seventh. Brooks Lawrence (3-2) was the loser after winning three in a row.

The Pirates, shut out on three hits for six innings by Johnny Antonelli, put it away with three runs in the 12th. Gordon Jones (1-2), fourth of six Giant pitchers, was the loser. Bennie Daniels, who lost his first decision as a starter Monday night, won this one in relief, although roughed up for two runs in the 12th on two singles and three errors. Two of the boots were by Bob Clemente, whose single proved the clincher for the Pirates.

Favor Ralph Dupas Over Charley Scott

CHICAGO (AP) — Ralph Dupas of New Orleans, a veteran of 92 fights although only 23 years old, is a slight favorite to pad his winning record against rugged Charley Scott tonight.

The welterweight 10-rounder in Chicago Stadium will be televised (ABC, 9 p.m. EST) and scored under the five-point must system.

Scott, 22-year-old Philadelphia puncher, is seeking his fifth straight victory. He has won 22, losing only 2 and battling to 7 draws.

Scott is ranked seventh on the welterweight ladder by both the National Boxing Assn. and Ring magazine. Dupas, with a 75-11-6 record, is rated No. 2 by the NBA and No. 4 by Ring.

Gets 3 Homers In 8 To 2 Win

By THE ASSOCIATED PRESS

The way first baseman Zeke King and pitcher Al Antinelli have been blazing along, it's no wonder Allentown is leading the Eastern League.

King rapped out four hits Tuesday, including three homers, and batted in three runs to back the eight-hit pitching of Antinelli. Antinelli picked up his fifth win against no defeats as Allentown beat Lancaster 8-2.

Allentown iced the game with five runs in the

Move For Reappraisal Of Pa. School System Grows At Capital; Propose Study

By FRED B. WALTERS
HARRISBURG (AP)—With the state's biennial school budget approaching one billion dollars, sentiment appeared to be growing in the House today for a complete reappraisal of the educational system.

Rep. Stanley G. Stroup (R-Bedford) called for a 15-member committee made up equally of House members, senators and educators to make the study.

House Republicans suggested the action Monday night and acquired a staunch ally in speaker H. G. Andrews (D-Cambria).

"No Leadership"

So-called fringe benefits were singled out for a special attack in turn by Rep. Albert W. Johnson, GOP floor leader, Andrews and Stroup. They did not mention any specific items in the public school budgets but Johnson expressed the point of the proposed study precisely with the statement:

"I wonder if we're trying to operate an educational system that we can't afford."

Johnson complained that there was no leadership on the problems of education in the present administration. He too, suggested that a committee be formed to make "a complete reappraisal of our whole school system."

"In Dire Distress"

Stroup declared that school districts are being forced by the Department of Public Instruction and by the Legislature to spend money for things for which they receive no financial aid from the state.

In the present budget of 705 million dollars for support of public schools, Stroup added, "there is not enough money... to take care of increases mandated by the department and by the Legislature."

"Now our school districts are in dire distress," he said.

Andrews told the House that a committee such as Johnson and Stroup recommended already is under consideration. Then he asserted, "I have long been dissatisfied with the leadership that we have in the Department of Public Instruction and I have long been

Court Orders Man To Begin Sentence

HARRISBURG (AP)—The Dauphin County Court has ordered Stanley S. Stone, of Harrisburg, surrender next Monday to begin serving a four to eight year term for fraud.

Dist. Atty. Huette F. Dowling said Stone has exhausted all legal action he can take in his case since the State Supreme Court refused to review it last week.

Stone, 44, was sentenced Jan. 10, 1958, on 19 charges of fraudulent pretense. He was accused of taking funds from persons in an investment scheme.

MIKE STOKEY NOMINEE FOR DEAN OF TV

By CYNTHIA LOWRY
NEW YORK (AP)—Mike Stokey at 41, is a top candidate for the title of the dean of television. Certainly the game program, Pantomime Quiz, over which he presides, must be the oldest show in the medium.

Based on the ancient game of charades, Pantomime Quiz with Stokey as activities director, made its debut in Hollywood in 1939—before one camera, and was seen on perhaps 20 TV sets. Stokey was a show-struck student at Los Angeles City College given a chance to put on a program. Notice was short, so Stokey just rounded up a bunch of friends and they played the game they had been playing for fun.

"We wore purple makeup and brown lipstick," recalls Stokey, "and it sure seems a long time ago."

Same Game Keeps Going

Twenty years later, Stokey is still directing the same game. The venerable program, a perennial summer replacement on network TV, now has a permanent daytime niche. Pantomime Quiz weeks in on ABC and, if all goes well, won't disappear in autumn. However, just to keep up the record, Stokey and company will also be a summer replacement for the Voice of Firestone.

Mike's original splash into TV lasted a magnificent week. When he got out of college, he joined NBC as a radio announcer, left for wartime military service.

"When I got back," he says, "I was sure somebody would have figured 'The game'—that's what it was called then—would be a natural for TV. But nobody had, so I picked it up. First we were on a local Los Angeles station, then expanded to a regional network. And then, when those first fuzzy kinescopes came along, we finally got all the way across the country to New York."

Basic Formula Same

That was 10 years ago, and since then Mike and his teams of enthusiastic show business names have turned up each summer season.

Stokey won't change the basic formula of the show. He usually works with competing teams of four—all ardent gamblers who also have well-known names. In its daytime format, however, Stokey plans to mix up show biz personalities with participants from the audience. They'll be picked the day before the show to give Stokey a chance to teach them the signals.

PITTSBURGH (AP)—State Supreme Court Justice Thomas D. McBride today had the endorsement of John A. Feigel, president of Typographical Union No. 7, in his bid for the Democratic nomination for a full 21-year term.

Feigel said Tuesday he was speaking only as president of Local 7 and as head of the Allied Printing Trades Council in endorsing McBride.

Featherbedding Costly To R. R.

PITTSBURGH (AP)—Featherbedding rules which require pay for work not done are costing U.S. railroads 500 millions dollars a year, says a top railroad executive.

David I. Mackie, chairman of the Eastern Railroad Presidents Conference, added Tuesday that the railroads are set for an all-out fight against the problem.

"Our effort is not against railroad labor," Mackie said in a speech to a luncheon forum at the Pittsburgh Press Club. "We are against featherbedding rules, not against the people entrapped and victimized by them."

Mackie referred to rules in labor agreements between railroads and rail unions which define standard work practices, such as the distance to be traveled in a working day, and draw strict lines between the functions and duties of various employees.

PLAN HEARING FOR CONTEMPT

ERIE, Pa. (AP)—A ruling in a civil contempt hearing involving the striking International Union of Electrical Workers and the Erie Resistor Corp. is expected in about a week.

The hearing ended Tuesday after the union counsel rested without presenting any witnesses. Nineteen company witnesses testified earlier.

The hearing was ordered following picket line activities of IUE Local 613 last week. A court injunction had been in effect against mass picketing and picket line disturbances.

Judge Burton R. Laub denied union motions for a jury trial and dismissal of the case because of lack of evidence, and an objection against the use of films as evidence.

Meanwhile, Erie City Council urged continuous negotiating sessions in an attempt to settle the dispute. Some 400 employees struck April 1 in a contract dispute.

Negotiations were slated to resume today under the guidance of state and federal mediators.

Voters To Decide In Fall On Higher Limits For Debt In School Districts In Pa.

HARRISBURG (AP)—Pennsylvania voters will be given an opportunity in the Nov. 3 general election to decide if the borrowing capacity of school districts should be increased.

The Senate Tuesday night completed legislative action on a proposed Constitutional amendment putting a higher ceiling on local school debts. It breezed unanimously through both the House and Senate this year and in 1957.

Chairman Paul L. Wagner (R-Schuylkill) of the Senate Education Committee hailed the move as a means of keeping down interest costs for school districts that must borrow for new construction.

Using Authorities

"Hundreds of school districts have turned to the authority method of financing construction because they were at or close to their debt limit," he told The Associated Press. "That always costs more in interest because regular school bonds carry a lower rate."

The debt incurred by authorities set up by school districts in the past few years is beyond the half billion dollar mark. The State Public School Building Authority debt is hovering around the 100-million-dollar mark. Authority bonds carry an interest rate from one-half to 1 per cent to 2 per cent higher than those sold directly by a school district.

Under the proposed constitutional amendment, the debt limit for all school districts, except Philadelphia and Pittsburgh, would be equal to 15 per cent of the assessed valuation of real estate in the district. The present ceiling is 7 per cent.

It also provides that voter approval in a district would be necessary only when a bond issue is in excess of 5 per cent of the valuation. The present restriction is 2 per cent.

Extend Gas Tax

For Philadelphia and Pittsburgh the debt limitation would be increased from 2 per cent to 5 per cent under measures approved by the House Education Committee Tuesday. The present ceiling for the two largest cities in the state is imposed by statute—not the Constitution.

Other legislative developments:

Gasoline tax—The House Tuesday night voted to extend for two more years, starting June 1, two cents of the five-cent-a-gallon gasoline tax. The remaining three cents is a permanent tax and requires no action.

The measure went to the Senate. The bill has no connection with the Lawrence administration plan to increase the gasoline levy to six cents. The Senate Appropriations Committee plans a hearing today on that boost.

Money For Coal Study

Coal—The House also approved, 191-0, a \$500,000 appropriation to finance a study of the feasibility of using coal as a road-building material. It would authorize the State Highways Department to use coal-based highway surfacing experimentally.

A similar bill in the Senate was approved today by the appropriations Committee. The committee knocked out the appropriation, however, on the grounds that the department doesn't need the money.

Education—The House Appropriations Committee scheduled a public meeting tonight with the De-

partment of Public Instruction to answer House Republicans' complaints that the proposed budget for public schools in 1959-61 is inadequate.

Billboard Bill

Meanwhile, the House Education Committee approved bills giving priority in state aid for school construction to projects specifically designed to remove fire hazards and requiring school fire drills to be held twice a month instead of only once.

Billboards — Reps. Thomas J. McCormack (D-Phila) and Maurice H. Goldstein (R - Allegheny) complained that amendments to the billboard control bill by the House Highways Committee had destroyed the bill's effectiveness.

INJURED RED SEAMAN LIKES YANKEE FOOD

ANCHORAGE, Alaska (AP) — Political questions were barred in the first interview permitted with injured Russian seaman, rushed here by an international good will mission.

But reporters Monday were able to learn these homey facts about Evgenij Ivanovich Gneushev, 23: He likes American food and puts away four or five eggs each morning.

He is excitable and would rather laugh and joke than answer questions through an interpreter.

Gneushev, who received severe brain injuries in a fall into a hold on Soviet fishing boat last month, has made remarkable recovery. He was unconscious and completely paralyzed when rushed here by U. S. Coast Guard cutter and amphibian and placed in the Elmdorf Air Force Base Hospital.

He is now alert, has regained full power of speech, has the use of most of his body and is recovering even on the right side through physical therapy.

Officials here said they did not know when Gneushev would be well enough to leave Alaska. He was brought here for treatment at the request of the Russian Embassy in Washington.

MILLIONS MAY BE REFUNDED

MIAMI, Fla. (AP) — A circuit judge has ordered the city of Miami to refund more than a million dollars to traffic violators.

Circuit Judge Robert H. Anderson said Monday violators were illegally fined since metropolitan government took over in Dade County with its 26 municipalities March 1, 1958.

He ordered an immediate shutdown of Miami's traffic courts and labeled all Miami traffic convictions null and void since the March, 1958 date.

City attorneys said they will immediately appeal the decision. Miami courts will continue to try and fine violators until the Florida Supreme Court rules, they said.

The circuit court order stemmed from attempts by two traffic violators to get back \$65 they paid in fines. They are Oise Ketton, fined \$50 for drunken driving, and Gene C. Russo, a telephone repairman who mailed in \$15 on a citation for running a stop sign.

If approved by the State Supreme Court, the decision could heap more woes on Miami in the form of false arrest suits and damage claims for court costs, towing charges and bail bond fees.

Harry Housen, an attorney in the case, said most persons won't be able to seek damages because they already let their 30-day appeal period lapse.

RED CHINA IS SEEKING POST IN OLYMPICS

NEW YORK (AP) — Avery Brundage, president of the International Olympic Committee, smiled today and recalled Communist China's promise of a year ago.

"Red China resigned from the Olympic movement," said the Chicago hotel owner, "and said that she would stay out so long as Avery Brundage, that agent of the imperialistic State Department, headed it."

Now Red China wants back in. Brundage leaves Wednesday for the executive session of the IOC meeting starting May 23 in Munich and there is a request by Russia to place the admission of Red China on the agenda.

"We try to keep out of politics," he sighed. "We don't recognize governments. We recognize only national Olympic committees, federations and sportsmen."

"Red China is going to demand at our meeting that it be in control of all Chinese athletes all over the world."

The reason Red China gave for resigning from the Olympic movement was that it objected to Nationalist China competing for Formosa.

Brundage wouldn't say what chance Red China has of being readmitted but did point out that there was nothing to prevent the country from getting back in the fold so long as it followed the Olympic rule of calling for no distinction between race, religion or political beliefs.

New Solution Out For Contact Lenses

SUNNYVALE, Calif. (AP) — Barnes-Hind Laboratories, Inc., which recently recalled all its wetting solutions for contact lenses, says it has distributed a new one which will be sterile and pink, instead of green.

The Food and Drug Administration two weeks ago warned against use of one lot of the old solutions, saying it contained a potentially dangerous form of bacteria.

Harry W. Hind, president of the drug firm, said the old product had been registered with the Department of Agriculture "on the previous advice of the FDA," which he said had never required sterility in the solution. There is no other difference from the old product, Hind said.

Blast Residence Of Board President

MYERSTOWN, Pa. (AP) — Eight windows at the home of a school board president were shattered Monday night by a shotgun blast. The president blamed the shooting on dissatisfaction with a school jointure.

Glenn Trout, president of the Eastern Lebanon County Joint School Board, was at a meeting when the gun was fired, but three of his children were watching television near one of the windows shattered by the blast. No one was injured.

Trout attributed the violence to opposition to a board proposal to put the present temporary jointure on a permanent basis.

Police said there were no immediate clues to who might have fired the shotgun.

NEW YORK (AP) — Five of the six nonprofit hospitals struck by nonprofessional workers have temporarily postponed plans to seek court injunctions against the strike. Mayor Robert F. Wagner announced today.

Women Win On Dated Milk Issue

BALTIMORE (AP) — Some ingenious women thought dairies in this city should continue to be required to date the containers of milk they sell.

The Women's Civic League passed out undated milk containers to City Council on which they had pasted this warning:

"This milk is undated. Will you take a chance and drink it?"

The council voted unanimously to uphold the women.

GOP SUPPORTS PLAN TO HELP SOME SCHOOLS

HARRISBURG (AP)—Republicans threw their support Tuesday behind the Lawrence administration plan to speed up repairs to school buildings with fire hazards.

Rep. Albert W. Johnson, House Republican floor leader, said he saw no objection to legislation featuring an \$800,000 appropriation for state aid to financially distressed school districts with fire hazards.

"It looks all right to me," he told the Associated Press.

To Spend Eight Millions
The House Education Committee called a meeting during the day to give its approval to the program. It also calls for:

Priority in state aid for school construction projects specifically designed to remove fire hazards.

School fire drills twice a month instead of once a month.

Gov. Lawrence has estimated the cost of repairing schools with fire hazards at about 8 million dollars. Ninety per cent of the school districts involved, he said, can manage their own repairs without state help.

Taxes And School Aid
Other legislative developments Monday:

Taxes — The Senate Finance Committee revised a proposed two-year extension of the 1 per cent real estate transfer tax to exempt trade-ins on new homes.

Under the plan, the value of a house transferred to a building contractor toward the cost of a new residence would be exempt from the levy.

School aid — House Republicans called for a reappraisal of the state's education system. House speaker H. G. Andrews (D-Cambria) immediately endorsed the demand.

Johnson told the House the Commonwealth may be trying to operate a school system it can't afford. Andrews said he is dissatisfied with the leadership of the

Public Instruction Department. Rep. Stanley G. Stroup (R-Bedford) said the Legislature is forcing school districts to spend more on schools without providing enough state aid to finance the expansion.

Worley's Proposal
Governor's mansion—The House voted to repeal a 1945 appropriation for \$250,000 to build a new executive mansion for the governor.

Rep. Francis Worley (R-Adams) said he would go one step farther. He said he would introduce legislation to sell the old executive mansion on Front Street and have the governor live all year at the summer mansion at the Indian-town Gap military reservation, 20 miles away.

In a speech on the House floor Monday evening Worley pointed to the record showing that he cast the sole vote against the appropriation bill 14 years ago when the vote was 206 to 1. "Today you are about to say I was right when they hooted at my opposition in 1945," he said.

Appropriations—The House Appropriations Committee sent to the floor 122½ million dollars in appropriations for relief payments and for the operation of state government in the first few months of the new two-year fiscal period starting June 1.

Duplicate Cards
The move anticipated the certainty that the Legislature would not adjourn by June 1 when additional money will be needed to continue government operations.

Registration cards—The Senate passed and sent to the House legislation which would permit Pennsylvania auto owners to get duplicate registration cards for other family members.

Korean bonus—An appropriation of \$200,000 to the Military Affairs Department to hire personnel for administering payment of the bonus to Korean War Veterans also won Senate approval. The appropriation bill was sent to the House for concurrence on minor amendments.

REDS SEEKING ANTI-NASSER BOSS IN SUDAN

By WILTON WYNN
CAIRO (AP)—Communists in Sudan are trying to line up support for a coup to put in power an anti-Nasser strongman on the order of Iraqi Premier Abdel Karim Kassem.

So far the Reds have met with little success in their efforts to build up a popular front which would join in the opposition to President Gamal Abdel Nasser's brand of Arab nationalism.

But Sudan is so wobbly politically and economically that Communist activities are not taken lightly by observers.

The man the Reds are grooming to be their Sudanese Kassem is Brig. Abdel Rahim Shanan, who looks like the strongest man in the military junta now governing the country.

Trained Under British
Shanan himself is no Communist. Like other senior Sudanese officers, he got his military training under the British. Basically he is a conservative and a genuine Sudanese nationalist. But he is ambitious enough to be vulnerable to leftist wooing and he is anti-Egyptian.

Shanan was not a member of the original junta headed by army commander Ibrahim Abboud which took over the Sudanese government last November. Shanan forced his way into the junta by marching his regiment into Khartoum last March.

The compromise junta that resulted disappointed a powerful clique of junior officers who had backed Shanan in the hope he would set up a completely new regime.

Wide Gap In Army
There is a wide gap between generals and captains in Sudan's 12,000-man army.

The Communists in the Sudan are not strong numerically but they dominate the trade unions and the Anti-Imperialist Front.

Abboud cracked down on the Communists on taking power last November, suspended trade unions and jailed many leftist leaders. Since the ouster of Gen. Ahmed Abdel Wahab as minister of interior, however, there is noticeable easing of pressure on the Reds.

STRASBOURG, France (AP)—The Lutheran World Federation, at a meeting of its executive committee here, approved a plan to set up a radio station in Africa.

BUILDING LOAN
NEW YORK (AP)—The United Presbyterian Church has obtained a 5 million dollar loan from the New York Life Insurance Co. to be used to help build churches "in new or rapidly growing communities, where physical facilities are absent or wholly inadequate."

BOSTON (AP)—Back from a recent visit to Spain, the Rev. Dr. Fred F. Goodsell, a retired Congregational missions leader, said Protestant missionary work is needed in Spain more than ever before. He said the Catholic church there "has to a very great extent lost its ability to meet basic human need for spiritual transformation and guidance."

Former Hearst Newsman Dies

HENDERSONVILLE, N.C. (AP)—Samuel M. Williams, who worked in key positions for William Randolph Hearst and Joseph Pulitzer in his 50 years as a newspaperman, died Monday at 90.

He came here when he retired 10 years ago. Williams, a native of Norwalk, Ohio, began his career as a reporter on the old Cleveland Press. Later he became city editor. Subsequently he joined Joseph Pulitzer's old New York World.

In 1931, he went to St. Paul, Minn., as editor-in-chief of the Pioneer Press and Evening Dispatch. He later returned to New York as manager of the Daily Newspaper Code Authority.

Survivors include his widow, Claire Vanderpool-Smith Williams.

MILLION EELS ARE PLACED IN SUSQUEHANNA

HARRISBURG (AP)—A million young eels have been planted in the Susquehanna River Watershed in an effort to restore fishing for the species.

The eels were transferred from below the hydroelectric dam at Conowingo to up-river areas and tributaries, the Pennsylvania Fish Commission said Monday.

Eels have been virtually absent from the watershed since construction on the lower river of power dams which prevent the up-stream migration of the ocean-spawned species.

The attempt to restore a measure of eel fishing is in its third year. An agreement with the Maryland Inland Fish and Game Commission provides for the exchange of up to one million young eels each year for a like number of walleye fry. The walleyes are to be planted in Maryland waters.

200,000 From Maryland
Maryland furnished some 200,000 eels when the program started in 1957, but many of them failed to survive the handling. The Fish Commission reports that improved techniques enabled the recent plantings to be completed with no known losses.

Dewey Sorenson, superintendent of hatcheries for the commission, said the eels were distributed this way:

Montour County — Susquehanna River 35,000; Chillisquaque Creek, 71,760 and Mahoning Creek, 69,490.

Northumberland County—North Branch Susquehanna, 42,000.

Snyder County — Middle Creek 49,000; Musser's Dam, 98,000; Penns Creek, 53,820; Lower Penns Creek, 80,730.

Huntingdon County — Aughwick

STEIGER TOOK HIS EDUCATION "LYING DOWN"

By HAL BOYLE
NEW YORK (AP)—Rod Steiger has joined the public chorus of those praising the benefits of psychoanalysis.

The actor has spent between \$5,000 and \$7,000 over the last five years on visits to the understanding couch—and feels it is the best investment of his life, he says. "I took my college education lying down," joked Steiger, who left high school at 16 to join the Navy.

Enhanced Creativity
"Some people seem to feel that undergoing analysis will hurt their creativity. But I feel it enhanced my creativity a hundredfold."

"It also gave me the freedom to look out at other people instead of being involved only with myself." Rod has reached a new peak in a career of self-expression that began when, as a lonely boy of 11, he tried to write poetry.

He is starring on Broadway. His latest film is breaking boxoffice records. Since he owns 10 per cent of the picture, he may wind up comfortably well off.

Key Word Is Freedom
Freedom is a key word in Steiger's life.

"I want to be free to do nothing if I want to—and everything if I choose," he said. "I want the freedom to make my own mistakes, to be hurt and to hurt—freedom to

Creek, 97,412; Raystown Branch of the Juniata River, 110,332.

Juniata County — Tuscarora Creek, 97,412.

Perry County — Buffalo Creek and Sherman's Creek, each 97,412.

The eels are collected by personnel of the Maryland agency and moved in large cans to the state line, where they are transferred to Pennsylvania Fish Commission tank trucks and transported to their respective release points.

apologize, freedom to love." Rod has been pretty much on his own since the age of 12. He worked as a leathercutter, an ice truck driver, a pin boy in a bowling alley, and a New Jersey boardwalk Barker before joining the Navy.

"I had to lie about my age to get in," he recalled. "I went into the Navy because I was looking for some place to be."

A Way To Meet Girls
After the war, while working with the Veterans Administration in Newark, he joined a theater group.

"At that time I had no real thought of becoming an actor," he said. "It was just a good way to meet girls."

"One of the worst mistakes an actor can make is to stay completely within a theatrical environment. An actor who lives more completely in his roles on the stage than in the role nature meant him to play is a frightened and unhappy person," he said.

"You can't make your job your whole life. It has to be only a part of it. This holds true for a man in Wall Street as well as for an actor."

He is a complicated man of considerable reserve who still tends to resent the brash familiarities of what he calls "the four-minute friends who try to move in on your life and rob you of your time, the one thing you can't get back."

His philosophy today? "Happiness has to be helped." He said slowly. "But if a man creates more beauty than he destroys, you must classify him as good."

"If he destroys more beauty than he creates, he is evil."

"What I want most is a happy home of my own—and the maturity to sustain it. I think I'm getting closer."

GREENSBURG, Pa. (AP)—Two autos collided Monday on the Pennsylvania Turnpike near the Irwin Interchange, killing Steve Carter Eddy, 65, of Cleveland. Five other persons were injured.

Eddy was a retired commissioner of the Federal Mediation & Conciliation Service.

Legislation

HARRISBURG (AP)—Duplicate registration cards would be provided for cars used by more than one driver under a bill passed by the Senate.

The proposal, which was sent to the House Monday for its consideration, would allow a motorist to purchase a duplicate registration card for \$1.

Sen. Albert R. Pechan (R-Armstrong), one of the sponsors of the bill, said the legislation would make it possible for the owner of the car to provide a registration card for every other driver of the car "instead of leaving it in the glove compartment where it would be accessible to a car thief."

Pechan said present law requires that the persons who are driving the car to have the registration card in his possession. The new act would not only make the law more workable, he said, but would bring in added revenue for the state.

Mobile Homes
HARRISBURG (AP)—Definitions and regulations for house trailers, mobile homes and office trailers would be written into the vehicle code by a series of eight bills introduced in the Senate.

Present law refers to trailers designed and used exclusively for living and does not make the separate distinctions.

Sen. George N. Wade (R-Cumberland) said the proposals were introduced Monday in "recognition of a new industry which has grown up so fast in recent years."

He said the measures would provide regulations and controls for the growing industry.

Sponsors of the bills were Sens. J. Irving Whalley (R-Somerset), George J. Sarraf (D-Allegheny) and Wade.

Mail Order Bill
HARRISBURG (AP)—Mail order houses would be required to register with the state and collect the 3½ per cent sales tax under

Asks Governor To Cut School Term

FRANKFORT, Ky. (AP)—Bobby Lee Jasper of Russell Springs sent his penciled plea right to the top—but it didn't work.

The youngster asked Gov. A. B. Chandler to reduce school terms to three months a year. "If you think this could be done," he said, "write me a letter."

Chandler replied that when he was Bobby's age he "had the same idea," but later realized "the more education I could get, the better off I would be."

A House bill introduced Monday night.

Reps. Ford E. O'Dell (R-Erie) and Robert Wheeler Jr. (D-Fayette) sponsored the legislation.

Under present law, the purchaser is expected to pay the tax on taxable purchases made from out-of-state mail order houses. The Revenue Department, however, has complained of difficulty in enforcing the assessment.

Another House bill introduced Monday night would:

Restore the exemption from the sales tax on restaurant meals and raise it to \$1 it was 50 cents before the tax was expanded last month—Reps. Enos H. Horst (R-Franklin), Arthur George (R-Cumberland) and Harvey P. Murray (R-Snyder).

Drag Races
HARRISBURG (AP)—Competitive racing of vehicles on any road in the Commonwealth would bring a mandatory five-year revocation of a violator's driving license under a Senate-passed bill.

The Senate approved the measure Monday 49-0, and sent it to the House for further action.

Besides the mandatory five-year suspension, the violator would be subject to a \$100 fine.

Sen. Robert D. Fleming (R-Allegheny), sponsor of the bill, said the strict penalty was proposed in an effort to stop a dangerous practice which endangers the lives of Commonwealth motorists.
